S2 Fig: Comparison of biochar and compost amendments in the tractor row in (a) CO$_2$ emissions, (b) N$_2$O emissions, (c) WFPS, (d) NO$_3$-N, and (e) NH$_4^+$-N from measurements taken during the 29 months of observations (June 2010 to October 2012). Error bars represent ± one standard error (n = 3).
