

School of Dental Medicine - LGBTQ Climate Survey

This survey is part of a research study being conducted at the University of Pennsylvania, and asks questions about your perceptions of and experiences with lesbian, gay, bisexual, trans, and queer (LGBTQ) individuals and education at Penn. The goal of this survey is to evaluate the climate at Penn's health professional schools. Please only complete this survey once. Participation in this research is completely voluntary, and completion and submission of the survey implies your consent to participate.

The survey is anonymous and confidential; no identifiable information will be recorded and your answers will never be reported individually. You can reach the researchers at PennNursesPUSH@gmail.com for questions or concerns about your participation in the study, and information about on-campus Counseling and Psychiatric Services (CAPS) is available upon request.

The following survey asks questions about your perceptions of and experiences with lesbian, gay, bisexual, trans, and queer (LGBTQ) individuals and education at Penn. Your participation in this survey will help us better understand and improve LGBT health and visibility at Penn. Participation is voluntary and no identifying information will be collected.

Willingness to complete the survey indicates consent to participate in the research study.
