____ 5. I think I have a great deal of power
____ 6. My ideas and opinions are often ignored (r)

Please note that this scale was translated into German for the presented study. The original Sense of Power Scale was constructed and published by Anderson, John & Keltner (2012). Permission to use the items of the scale was obtained before the study commenced. We only used the first six items of their original scale and our participants could rate the items on a scale from 1-6.
