HOW TO USE MATRIX.	Put a check under all codes that han	nen anvtime in each 2-minute time period	I If no codes fit, choose "Other" and explain in note							

HOW TO USE MATRIX: Put a check under all codes that happen anytime in each 2-minute time period. If no codes fit, choose "Other" and explain in notes.
Check multiple codes where appropriate, except NCD is only checked when no other codes are present in that period. Clarify code choices with comments in notes.
