S4 Fig. Sensitivity analysis of the system

Activation value (0.1): Modified activation rule with sigmoid transformation function

Values of concepts

Number of iterations

Activation value (0.2): Modified activation rule with sigmoid transformation function

Values of concepts

Number of iterations

Activation value (0.3): Modified activation rule with sigmoid transformation function

Values of concepts

Number of iterations
Activation value (0.4): Modified activation rule with sigmoid transformation function

Values of concepts

Number of iterations

Activation value (0.5): Modified activation rule with sigmoid transformation function

Values of concepts

Number of iterations

Activation value (0.6): Modified activation rule with sigmoid transformation function

Values of concepts

Number of iterations

Values of concepts
Activation value (0.7): Modified activation rule with sigmoid transformation function

Activation value (0.8): Modified activation rule with sigmoid transformation function

Activation value (0.9): Modified activation rule with sigmoid transformation function
