

S3 Appendix: Opinion poll

Return of Genomic Test Results at Southcentral Foundation (SCF)

1. It is important for SCF to offer genomic testing.
 - Strongly Disagree
 - Disagree
 - Agree
 - Strongly Agree
 - Unsure

2. Genomic test results would benefit the healthcare I receive at SCF.
 - Strongly Disagree
 - Disagree
 - Agree
 - Strongly Agree
 - Unsure

3. Results of a genomic test should be returned to a customer-owner even if we don't know what the results mean?
 - Strongly Disagree
 - Disagree
 - Agree
 - Strongly Agree
 - Unsure

4. I would not need help interpreting my genomic test results.
 - Strongly Disagree
 - Disagree
 - Agree
 - Strongly Agree
 - Unsure

5. I would want to receive the results of a genomic test, even if it showed I had a risk for an untreatable or incurable health condition.
 - Strongly Disagree
 - Disagree
 - Agree
 - Strongly Agree
 - Unsure

6. I would share the results of a genomic test with my family member(s) if the results could affect their health.
 - Strongly Disagree
 - Disagree
 - Agree
 - Strongly Agree
 - Unsure

7. If a genomic test result could have implications for family members, the individual should be required to share their genomic test results.
 - Strongly Disagree

S3 Appendix: Opinion poll

- Disagree
 - Agree
 - Strongly Agree
 - Unsure
8. SCF should provide support for individuals who take a genomic test, like employing a genomic counselor, even if that means taking away funding from another health program at SCF.
- Strongly Disagree
 - Disagree
 - Agree
 - Strongly Agree
 - Unsure
9. It is important for customer-owners to know the results of genomic tests, even if we do not know what the results mean.
- Strongly Disagree
 - Disagree
 - Agree
 - Strongly Agree
 - Unsure
10. Providers should make treatment recommendations based on genomic research, even though research is always being updated.
- Strongly Disagree
 - Disagree
 - Agree
 - Strongly Agree
 - Unsure
11. Providers should be able to choose a medical treatment, even if a genomic test shows the treatment will not work for the customer-owner.
- Strongly Disagree
 - Disagree
 - Agree
 - Strongly Agree
 - Unsure
12. Customer-owners should be able to choose a medical treatment, even if a genomic test shows the treatment will not work for the customer-owner.
- Strongly Disagree
 - Disagree
 - Agree
 - Strongly Agree
 - Unsure
13. Customer-owners should be able to get a genomic test, even if having the test available means other programs would have less funding.
- Strongly Disagree
 - Disagree

S3 Appendix: Opinion poll

- Agree
 - Strongly Agree
 - Unsure
14. Customer-owners should be able to get a genomic test, even if it might not help.
- Strongly Disagree
 - Disagree
 - Agree
 - Strongly Agree
 - Unsure
15. SCF should limit when providers can order a genomic test.
- Strongly Disagree
 - Disagree
 - Agree
 - Strongly Agree
 - Unsure
16. SCF should share genomic test results with family members of an individual who took a genomic test and results could implicate their family member's health.
- Strongly Disagree
 - Disagree
 - Agree
 - Strongly Agree
 - Unsure
17. A customer-owner has a genomic test done and it shows treatment A would be better for customer-owner than treatment B, should these types of genomic results be returned to the customer-owner?
- Strongly Disagree
 - Disagree
 - Agree
 - Strongly Agree
 - Unsure
18. Resources should be used for purposes other than genomic testing.
- Strongly Disagree
 - Disagree
 - Agree
 - Strongly Agree
 - Unsure
