You are on a vessel with the given parameters in the restricted area - Dover Strait (see displayed see chart).

Enter the distance (Nautical Miles) you wish to be passed by the same size vessel, proceeding at twice the speed - depending on the relative bearing at which it was sighted.

**Large ship:**
- Deadweight (DWT): 63 430 t
- Length over all (LOA): 261.0 m
- Breadth (B): 48.0 m
- Draught (T): 9.0 m
- Own ship speed (v): 8.1 knots
- Target ship speed (v_o): 16.3 knots

**Medium ship**
- DWT: 19 512 t
- LOA: 174.0 m
- B: 23.0 m
- T: 8.1 m
- Own ship speed (v): 10.0 knots
- Target ship speed (v_o): 18.9 knots

**Small ship**
- DWT: 3 510 t
- LOA: 95.0 m
- B: 13.0 m
- T: 3.7 m
- Own ship speed (v): 5.6 knots
- Target ship speed (v_o): 11.1 knots
