International Advisory Board & collaboration

Visiting scholar

Dr. Holy Akwar Deputy Head of Department, Antimicrobial Resistance and Veterinary Products at World Organization for Animal Health (WOAH)

Dr. Nimesh Poudyal, Lead- Department of Antimicrobial Resistance at International Vaccine Institute (IVI)

Dr. Kaja Abbas, Associate Professor at London School of Hygiene and Tropical Medicine

The major tasks, along with related activities, will be distributed among the PI and two Co-PIs, as outlined in Appendix J.

Each Co-PI will supervise a team of RAs consisting of post-doctoral students, PhD/MSc students, and bachelor students.

RAs will be involved in data collection, entry/cleaning, analysis, and scientific writing

The RAs will be trained and supported to ensure interchangeability wherever possible.

Regular research team meetings will be conducted by the PI, with co-PIs and senior RAs (post-doctoral and PhD students)

The meetings will be held on a semi-weekly basis and dedicated to discussing the project's progress and any issues encountered during its implementation.

More frequent meetings will be scheduled as needed, and the PI will be available 24/7 to address any urgent problems.

Additionally, the PI and two Co-PIs will participate in a monthly online meeting to discuss ongoing tasks and ensure the project remains on schedule.

The PI and two Co-PIs will participate in a monthly online meeting to discuss ongoing tasks and ensure the project remains on schedule.
