

Table S5. Linear model results estimating the relationship between FMI_P and the three FMI_C derivations using the GTA wild capture data (Model Equation: FMI_C ~ FMI_P). SE: Standard Error.

FMI _C Derivation	Intercept estimate	Intercept SE	Slope estimate	Slope SE	Slope t value	p-value	R ²
Proportional	0.202	0.024	0.612	0.035	17.272	<0.0001	0.81
Guillen	0.112	0.008	0.798	0.011	69.75	<0.0001	0.99
Gephart	0.285	0.020	0.513	0.030	17.55	<0.0001	0.81
