Figure A: Flow cytometry plot showing CD11a and CD8α expression.

Figure B: Violin plot showing the percentage of CD8+CD11a+CD8+ cells.

Figure C: Violin plot showing the number of CD8+CD11a+CD8+ cells/mL blood.

Figure D: Flow cytometry plot showing KLRG1 and CD127 expression.

Figure E: Violin plot showing the percentage of indicated population CD8+CD11a+ cells.

Figure F: Violin plot showing the number of indicated population CD8+CD11a+ cells/mL blood.

Legend:
- ZIKV
- CD8α
- CD11a
- SLECs
- MPECs

Note: The plots illustrate the expression levels and percentages of different cell populations under varying conditions.
