Synerion

Synerion Fingerprint Time Clock

Who We Are

Synerion is a global company with thousands of happy customers around the world. We specialize in time & scheduling software, tailoring our solution to meet the needs of even the most complex organizations. No matter how big or small, simple or complex Synerion has a solution that can help.

Synerion time clock

Why Synerion time clocks

Fingerprint Biometric

The clock has a reliable fingerprint sensor to quickly authenticate employees to get them punched into work.

Job Costing/Labor Allocation

Have employees select from a lists of jobs, tasks or departments right from the clock. All hours will be tracked and reportable inside of Synerion.

Made To Last

The Synerion Fingerprint clock is made from durable material and is able to withstand being in harsh environments.

Finger Biometric

- Finger Biometric
- Job Costing/Labor Allocation
- Pin Back Up
- Durable Design

Synerion Finger Biometric Time Clock

Technical specifications

Input/Output

- 4x USB 2.0 ports Basic access control functionality
- Bell ringing for breaks, lunch etc.

Biometrics

- Suprema SFM 3050
- Suprema SFM 6020
- Lumidigm M320
- Suprema SFM Slim

Display

- 4.3” 480 x 272 High-resolution color display
- Nested menu capability

Kiosk Expreince

Ability to surface Employee Self Service data on the terminal
Possibility to provide web breakouts through a secure portal
Reporting, schedules, vacations
Easy Clock WS/ DevIT available

Processor

- Freescale IMX28 at 454MHz
- Industrial high performance specification processor

Operating Temperature

- -10 to +50°C (14 to 122°F)**
- Humidity 5-90% non-condensing

Memory

- 256MB DDR2 800MHz with 512MB internal on-board flash memory

Connectivity

- Ethernet connectivity with https capability - 10/100/1000
- Wi-fi option through USB

Power

- 12V DC Jack
- Power over Ethernet 802.3at (PoE+) (optional)
- Optional Internal Lithium-polymer battery option to run the clock during power failure, which lasts up to 3 hours

Dimensions

- 197mm x 220mm x 107mm
- Height with biometric reader: 285mm

Audio

- 2X integrated speaker
- Integrated microphones
