- Motion graphics
- Fall Guys

Experience

Albert (Learn By Doing, Inc)

Oct 2016 - Current

Product Designer

- Developed and maintained atomic design systems and design patterns from the ground up.
- Designed, prototyped, and tested desktop-first and mobile interfaces.
- Designed internal systems and processes to improve communication between design and various teams.
- Facilitated discussions between various teams in order to obtain feedback to improve the product from all facets.
- Designed and coded our marketing pages from the ground up, leveraging CMS via Forestry.io.

Placester, Inc

Feb 2013 - Oct 2016

UX/UI Designer & Front End Dev

- Headed user testing for a native mobile application.
- Produced various interface mocks for CRM and status pages.

OpenHomePro.com

Dec 2015 - Feb 2016

Software Engineer & Graphic Designer

- Developed and coded a visual style guide.
- Designed and user tested interfaces for native apps.
- Coded in Node.js accompanied by Jade, Stylus, and Underscore.js technologies.
- Lead projects involving redesigning and coding a modern and responsive navigation bar.

MovingCompanyReviews.com

Feb 2014 - Feb 2015

Software Engineer, Lead Designer

- Designed graphics, logos, and new branding guide for designers and developers.
- Programmed in Ruby on Rails accompanied by HTML, SASS, CoffeeScript, and plain Javascript.
- Performed a variety of user tests to gain insight on UI and UX designs.
- Developed projects with mobile-first mindset.
