Training Title: HealthTree Multiple Myeloma

File Name [Scene.Slide.Layer]	Narration	Special Notes [Instructions / Reminders]
1.1	<p>At Healthtree Foundation, we believe in putting patients first. We strive to build trusted patient communities, where individuals find support and understanding. We're committed to accelerating research, pushing boundaries, and unlocking new possibilities in the quest for better treatments and outcomes. And above all, we relentlessly drive for a cure. Because every breakthrough, every discovery, brings us one step closer to a future without cancer.</p>	
1.2	<p>One way we put patients first is through education.</p> <p>Our Healthtree University is your gateway to comprehensive education and empowerment. Discover a wealth of resources tailored to your needs, including instructional guides, video courses, and specialist roundtables. Find what's new in the News and learn the myeloma 101.</p>	
1.3	<p>Join our vibrant community at HealthTree, where connection and support are at the heart of everything we do. Connect with fellow members on social media platforms, and with our in person and virtual support groups, where you can share experiences, find encouragement, and build lasting relationships.</p> <p>Receive personalized support from a dedicated 1:1 coach, who will guide you through your health journey, address your concerns, and empower you to reach your goals.</p> <p>Stay active and energized with Healthtree Moves, our initiative to promote physical fitness and well-being within our community.</p> <p>Explore our community events and specialized support groups, including Black Myeloma Support and Hispanic Myeloma Support, providing culturally sensitive resources within our diverse community.</p>	
1.4	<p>HealthTree Cure Hub is a unique approach in disease research that invites patients to contribute their complete longitudinal and validated real world data to academic researchers for free. This data allows researchers to hypothesize and gain new</p>	

	<p>insights. This approach to research is faster and less expensive, saving critical time for patients.</p> <p>Cure Hub allows you to track your myeloma reports and labs with precision and privacy while you explore treatment options tailored to your unique needs. You can find effective solutions for managing treatment side effects, empowering you to maintain your quality of life.</p> <p>Once in the Cure Hub you will discover the power of the Twin Machine, connecting you with individuals who share similar myeloma profiles.</p> <p>You can explore cutting-edge treatment options through our Clinical Trial Finder. Stay informed about the latest advancements in myeloma research. Access a wealth of research publications, providing valuable insights and information to empower you in your myeloma management.</p> <p>You can even make your voice heard by participating in research surveys that contribute to the advancement of myeloma treatment and care.</p>	
1.5	<p>For Myeloma Action Month, we hope you find HealthTree a place to get involved.</p> <p>Together we can make a difference in the fight against myeloma. Join us in advancing research by participating in groundbreaking studies. Your contribution could lead to life-changing discoveries.</p> <p>Consider supporting us by participating in our fundraisers or making a donation. Every donation brings us one step closer to finding a cure for myeloma. Stay up-to-date with the latest news and updates by signing up for our newsletter.</p> <p>We look forward to seeing you in our community. We hope to embrace you as we conquer myeloma together.</p>
