Cloud Coordinator Architecture
Outline

- Cloud Coordinator
  - What is?
  - What’s inside?
Cloud Coordinator – What is?

- **Functionalities**
  - Algorithms:
    - Cost Minimization*
    - Ramp Following*
    - Regulation*
    - Load forecasting*
  
- **Comms**:
  - Able to interface Home Hubs
  - Able to interface grid (utility, ISO)

* More details during Algorithms presentation
Cloud Coordinator – What’s inside?

- Architecture
