Things to consider, when buying.

Where was your seat measured?

We measure **ONLY** the part that you sit on. Others may not.

What's holding your chair together?

Using StaFast "Ultimate" T-nuts gives a metal to metal connection for superior holding power.

Who's standing behind your chairs?

The Summit comes with a 25 year warranty on the frame and full 10 year warranty on foam and fabric!

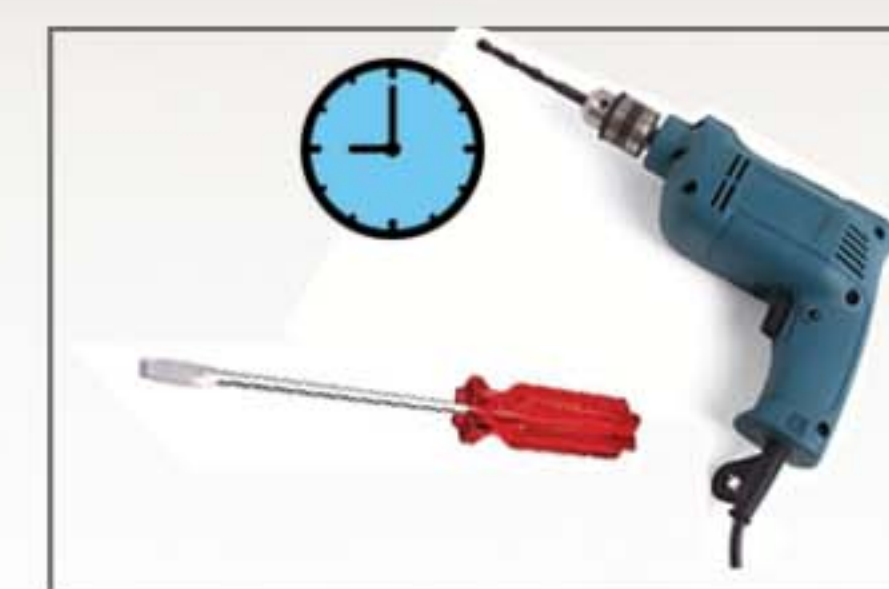

What's the comfort level after 20 minutes?

The Summit gives you 1½" of foam on the back, for increased lumbar support and comfort.

Out of sight, Really out of mind?

Plywood vs MDF. All Jubilee chairs come with plywood seat & back, not MDF.

What's my total investment?

NO ASSEMBLY REQUIRED. Other manufacturers will give you a great price, but you supply the labor.
