AIR Technology

The SUMMIT Series of chairs features a **Molded Cold Cured Foam (CCF)** seat cushion.

“Air-Pockets”, strategically placed throughout the cushion provide outstanding comfort, and performance (seat holds its shape).

“Cold Cured” or “Molded Foam” seats cushions are traditionally only available on fixed theatre seats & car seats. ComforTek Seating is pleased to offer this technology on our entire Sanctuary line of chairs.

Molded CCF cushions are covered by an extended **15 Year Warranty**.

Available Models: 7701-20” / 7711-20” / 7721-20”
