Mobile Cabinet Features

1. **Unitized Steel Frame**
   All-welded frames deliver superior strength. Powder coat paint provides more durable, lasting protection than enamel.

2. **Magnetic Door Catches**
   A magnetic force of 15 pounds helps keep doors securely closed without locks.

3. **Industrial-Strength Locks**
   Doors lock individually into the steel frame, allowing teachers to monitor student access to cabinet space.

4. **Secure Panel Attachment**
   Panels with thermofused melamine surfaces are attached to the unitized frame with four flathead bolts and aircraft lock nuts. Screws are also inserted through the frame and into panels to attach all edges.

5. **Recessed Side Handles**
   66” and 72” high cabinets have a recessed handle on each side that swings up and “locks” in position to facilitate mobility. Handle recess does not compromise storage space.

6. **Deluxe Industrial Casters**
   5” diameter casters with 2” width are bolted through the cabinet’s unitized frame. Virco uses exclusively heavy-duty rated casters. Front casters also have position- ing locks.

7. **Fully Extending Drawers**
   Reliable steel ball-bearing glides let drawers extend fully for complete access to storage space.

8. **Contoured Handles on Drawers & Doors**
   Smooth, contoured handles for enhanced safety promote easy use of drawers and doors.

9. **Recessed Adjustment Strips**
   Steel strips allow quick shelf adjustment in 1/8” increments.

10. **Doors Open 270°**
    Doors open completely against cabinet sides for enhanced safety and convenience. Hinges with non-removable pins enhance security.

11. **All-Steel Shelves**
    Shelves with reinforcement channels are stronger, yet lighter than particleboard. Smooth shelf edges are formed for safety.
