

Mobile Cabinet Features

11

All-Steel Shelves

Shelves with reinforcement channels are stronger, yet lighter than particleboard. Smooth shelf edges are formed for safety.

10

Recessed Adjustment Strips

Steel strips allow quick shelf adjustment in 1/2" increments.

9

Doors Open 270°

Doors open completely against cabinet sides for enhanced safety and convenience. Hinges with non-removable pins enhance security.

8

Contoured Handles on Drawers & Doors

Smooth, contoured handles for enhanced safety promote easy use of drawers and doors.

7

Fully Extending Drawers

Reliable steel ball-bearing glides let drawers extend fully for complete access to storage space.

1 Unitized Steel Frame
All-welded frames deliver superior strength. Powder coat paint provides more durable, lasting protection than enamel.

2 Magnetic Door Catches
A magnetic force of 15 pounds helps keep doors securely closed without locks.

3 Industrial-Strength Locks
Doors lock individually into the steel frame, allowing teachers to monitor student access to cabinet space.

4

Secure Panel Attachment

Panels with thermofused melamine surfaces are attached to the unitized frame with four flathead bolts and aircraft lock nuts. Screws are also inserted through the frame and into panels to attach all edges.

5

Recessed Side Handles

66" and 72" high cabinets have a recessed handle on each side that swings up and "locks" in position to facilitate mobility. Handle recess does not compromise storage space.

6

Deluxe Industrial Casters

5" diameter casters with 2" width are bolted through the cabinet's unitized frame. Virco uses exclusively heavy-duty rated casters. Front casters also have positioning locks.

Mobile Cabinet Accessories

2S4824

48"W x 24"D steel shelf for mobile cabinets.
