Galion advised that our suspects would have access to this veh.

VICTIM STATEMENT: Receive a call from Grant ICU Nurse Amy [redacted] who advised that victim Richard Warren was out of surgery, the respirator had been removed and he is making statements as to who had shot him. She arranged to have a phone moved to his bedside. Richard gave a statement which was recorded on Line #1. The dictaphone failed to copy to cassette so the statement was manually recorded on mini cassette and transcribed by Clerk L. Russell and is attached. The statement indicated that the victims called the attacker by his first and last names. Richard could only remember the first name as "Kevin".

After discussions with Officers at Galion and Crestline it seem likely that Kevin Keith or another Kevin would fit the physical descriptions and be associated with the Chatmans. Richard Warren was again called at Grant Hospital with four possible last names given to him. He immediately indicated that he was 75% sure that Keith was the last name that Marichelly Chatman had repeated.

Ptl. Koepke was asked to set up a photo line-up file which would include Kevin Keith's photo and have it ready for Capts. Blankenship and Corwin when they departed for Columbus to interview Richard Warren.
