

MADE IN SPAIN
Design by PRILUX

Applications

Roads

Parks

Residential Areas

Pedestrian Zones

Cycle lanes

Car parks

Certifications

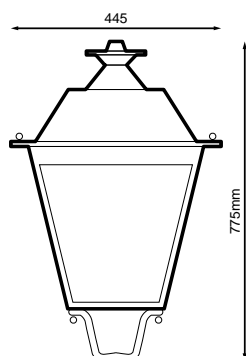

Specifications (Series luminaires)

	Voltage (V)	220-240V
Hz	Frecuency (Hz)	50-60Hz
	Current (A)	800mA
ϕ	Power factor (Cos fi)	0.98
	LED number	32
	Dimming	8N - DALI
	Comm. Prot. for reprogr.	CMR
	IP Tightness index	IP65
	IK Impact resistance	IK08
	Diffuser Material	VT-E 4mm
	Body	AL
K	Colour temperature	3.000K
	CRI Colour rendering index	>70
	Optical	VA00K0M

	Measures	855x445mm
	Weight	10Kg
	Wind Resistance	0,31m2
	Mounting	Arm Mount,Crosier Mount
	Operating temperature	-40~+35°C
ϕ_{LUM}	Flux (lm)	7622lm
	Electrical isolation	CI
	Lifetime	L90 B10 >200.000h
ϕ/W	Efficacy	97lm/W

Prilux guarantees a $\pm 10\%$ tolerance in light flux measurements.

Technologies

Overstorm

OVERSTORM technology is designed for those luminaires that normally face electrically aggressive environments. It provides the product with three spheres of protection: In the outer sphere, an independent surge protector suppresses eventual voltage surges, in the intermediate sphere the drivers are prepared to withstand voltage peaks of up to 6 kV and 10kV. In the nuclear sphere, the protection in the LED module is provided both at its input, for small surges that have not been filtered by the external spheres.

SystemShield

SYSTEMSHIELD technology is designed to guarantee the hours of useful life of luminaires installed in environments where exceeding the maximum operating temperature is possible and even probable. Using thermal probes, the luminaire knows its operating temperature at all times.

CMR

CMR (CORA MANAGER READY) identifies the prilux luminaires compatible with the CORA MANAGER system that provides the luminaires with control, regulation and programming.

Solutions

S

Was Outdoor

description

WAS (White Adaptive System) technology provides PRILUX luminaires with the ability to change both the amount of light they provide and the correlated color temperature, CCT. WAS (White Adaptive System) technology provides PRILUX luminaires with the ability to change both the amount of light they provide and the correlated color temperature

Cora Manager

description

Lighting management in the electrical panel that allows group control of the luminaires connected to the control center via the power line (CMR) without additional wiring

Info

For more information on the different solutions compatible with this luminaire, consult the following BIDI codes or on the web www.prilux.es

Info	
Includes Optical Group with ENEC, CB, N certification
