

MADE IN SPAIN
Design by PRILUX

Applications

Roads

Parks

Viaducts

Residential Areas

Pedestrian Zones

Cycle lanes

Car parks

Industrial

Certifications

Specifications (Series luminaires)

	Voltage (V)	220-240V		Measures	478x478x546mm
Hz	Frecuency (Hz)	50-60Hz		Weight	8Kg
	Current (A)	1.000mA		Wind Resistance	0,188m2
ϕ	Power factor (Cos fi)	0.98			
	LED number	12		Operating temperature	-40~+50°C
	Dimming	8N - DALI			
	Comm. Prot. for reprogr.	CMR	ϕ_{LUM}	Flux (lm)	4.511lm
	IP Tightness index	IP66		Electrical isolation	CI
	IK Impact resistance	IK09			
	Body color	9007		Lifetime	L90 B10 >200.000h
	Diffuser Material	VT-T	ϕ/W	Efficacy	116lm/W
	Body	AL iap			
K	Colour temperature	3.000K			
	CRI Colour rendering index	>70	Prilux guarantees a $\pm 10\%$ tolerance in light flux measurements.		
	Optical	VA00K0M

Technologies

Overstorm

OVERSTORM technology is designed for those luminaires that normally face electrically aggressive environments. It provides the product with three spheres of protection: In the outer sphere, an independent surge protector suppresses eventual voltage surges, in the intermediate sphere the drivers are prepared to withstand voltage peaks of up to 6 kV and 10kV. In the nuclear sphere, the protection in the LED module is provided both at its input, for small surges that have not been filtered by the external spheres.

SystemShield

SYSTEMSHIELD technology is designed to guarantee the hours of useful life of luminaires installed in environments where exceeding the maximum operating temperature is possible and even probable. Using thermal probes, the luminaire knows its operating temperature at all times.

CMR

CMR (CORA MANAGER READY) identifies the prilux luminaires compatible with the CORA MANAGER system that provides the luminaires with control, regulation and programming.

Solutions

S

Was Outdoor

description

WAS (White Adaptive System) technology provides PRILUX luminaires with the ability to change both the amount of light they provide and the correlated color temperature, CCT. WAS (White Adaptive System) technology provides PRILUX luminaires with the ability to change both the amount of light they provide and the correlated color temperature

Safelight

description

SAFELIGHT allows the lighting of zebra crossings with road luminaires adapted with special optics for this application that illuminate with white light with a continuous level of 100%

Cora Manager

description

One of the key pieces to achieve the path towards smart cities is lighting. Lighting management systems are advancing by leaps and bounds, prioritizing primary objectives such as service quality, cost reduction and care for the environment. CORA Manager is the control system developed by Prilux that, together with our compatible luminaires that provides intelligent management of public lighting, maintaining harmony between sustainable development and quality of life for citizens, while promoting safety and saving.

Info

For more information on the different solutions compatible with this luminaire, consult the following BIDI codes or on the web www.prilux.es
