## **About Me**

I am drawn to contemporary abstract art, impressionism, and cubism. My goal is to create meaningful and engaging work. I find inspiration in nature, my own perception of reality, life experiences, emotions, human interaction, contemporary art, literature, and music.

I began my active artistic career in 2023. Prior to this, I spent several years immersed in independent study and private lessons, mastering oil painting techniques, color theory, composition, and various artistic methods and materials.
