

## Undersea Keno Game Info

### GAME DESCRIPTION:

- Undersea Keno is an interactive keno game. Players choose 3 to 10 numbers. 20 numbers are randomly drawn out of 80. The number of matches between player numbers, drawn numbers, and the player's play amount determines the prize amount.
- This game includes a FREE GAME feature that when triggered, awards a player a minimum of 10 free games and the possibility of retriggering for up to 50 free games in a single free game sequence.
- This game has an AUTO PLAY option to automatically play up to 20 game rounds.

### HOW TO PLAY:

- Select the PLAY AMOUNT to choose from the available play amounts from \$0.10 to \$30 (default play is \$1).
- Choose your spots (numbers) by touching the numbers or use the QUICK PICK control to let the game randomly choose spots for you.
- As you choose your spots, the PRIZE TABLE updates to show you how much you win for the number of spots matched in the draw.
- If you change your mind and want to choose different spots, select the CLEAR button to erase your spots and start over again.
- When you're ready to play, press the PLAY button. Play begins by the selection of three bonus spots. The game then draws 20 numbers. If your spots match the drawn numbers, you win the prize amount shown in the prize table.
- If you match all three bonus spots, you win 10 FREE GAMES.
- To speed up the number drawing, touch the TURBO button.
- If you leave the game and return to play again, the result of your last game will be displayed allowing you to continue playing the same numbers. You can change your PLAY AMOUNT or select the CLEAR button to clear the board to select new numbers to play.

**FREE GAMES:**

- The free game feature awards you a minimum of 10 free games that each include a wheel spin that can multiply your prize win amount, award extra-draws, or award an instant-win prize.
- Free games are played using the PLAY AMOUNT and spots you picked when the free games were awarded. No changes to the PLAY AMOUNT or spots are allowed.
- To begin playing the free games, press the PLAY button. Each free game plays automatically starting with a wheel spin that awards a random award.
- The random wheel spin awards are as follows:
  - Prize Multiplier: 1x, 2x, 3x, 4x, 5x, 10x any prize won in the draw phase of the free game
  - 30 Draws: 30 numbers drawn instead of 20 numbers in the draw phase of the free game
  - Instant Win: 5x PLAY AMOUNT is paid and the free game ends with no draw phase
- For the Prize Multiplier and 30 Draws awards, a draw begins immediately after the wheel spin. The draw includes the bonus spot feature. If you match all three bonus spots during the draw phase of a free game, you are awarded an additional 10 free games. The maximum number of free games you can be awarded in a single free game sequence is 50 free games.

**AUTO PLAY FEATURE:**

- Select the AUTO button to open the AUTO PLAY settings
- Select the number of games to automatically play in a row (5, 10, 15, or 20). To cancel AUTO PLAY, choose the OFF button in the AUTO PLAY settings.
- Once a number of games has been selected for AUTO PLAY, the selected number will display on the PLAY button.
- Select the PLAY button to begin the auto play session with the current selected game play amount.
- Select the PLAY button at any time during AUTO PLAY to stop AUTO PLAY games once the current game round has completed.
