

PEMA® WL

outdoor LED surface-mounted wall light grey CCT switch 3000/4000 K

The PEMA® WL LED wall light consists of lacquered aluminium and glass, which covers the LED light source. Thanks to its high protection class, the luminaire is suitable for outdoor use. The light colour can be switched between 3000 K and 4000 K during installation using the built-in CCT switch. Because of the built-in LED driver, the electrical connection of the luminaire, which is available in several colours, is made directly to the 230V mains supply.
