

ONE VERTICAL PD

pendant light, 180cm, 2700/3000K, PHASE, white

Elegance meets modern technology. ONE VERTICAL PD PHASE boasts an unusual design: the vertically arranged rings of different sizes interlock artfully and create an extra-ordinary eye-catcher in the room. With a CRI>90 and a selectable light colour of 2700K or 3000K (CCT switch), the LED pendant light provides high-quality light. The dim-ming function gives every room the desired atmosphere, ideal for private living spaces and smaller projects. As part of the ONE family, ONE VERTICAL PD PHASE fits seam-lessly into current design trends.
