

CYFT WAVE

wall- and ceiling-mounted light, 2700/3000/4000 K, 6.5 W, PHASE, black / amber

The CYFT WAVE wall and ceiling light brings a special touch to modern interiors with its wave-shaped glass shade. Available in clear or the new amber version, it sets specific accents - from elegant and translucent to warm and atmospheric. With protection class IP65, the CYFT WAVE is ideal for wet room areas such as bathrooms and sheltered indoor and outdoor areas. The integrated LED has a CRI>90 and a CCT switch that allows the light colour to be selected from 2,700K, 3,000K or 4,000K. Optional decorative rings in a range of trendy colours, which can be fitted without tools, offer even more design freedom - including a rust-coloured version for outdoor area use.
