

NUMINOS® M

Elliptical diffuser

Do you want to put together individual solutions from a variety of downlights, wattages, luminous intensities and colours, semi-diffuse angles and other features? And with a uniform lighting and design concept? The NUMINOS® lighting system, which can be freely configured and combined, offers over a thousand possibilities. Like this elliptical diffuser, which can be used to adjust the light cone so that the lighting is oval rather than round in shape. When will you choose SLV's modular variety?
