LEDSTRIP DIFFUSER CORNER OPALE | M

LED STRIP DIF

Cover for LED strips, suitable for installation on corners. This cover is made of polycarbonate and features an opal surface that ensures uniform light diffusion. With a length of 200 cm, a width of 4.14 cm, and a height of 0.81 cm, it is specifically designed for LED strip installations to diffuse the light while protecting the LED strips. The cover is part of the LEDSTRIP DIFFUSER product line and allows for a neat and functional integration in various installation scenarios.
