

LEDSTRIP END CAPS SURFACE | M

LED STRIP END CAPS, SURFACE-MOUNTED, M, white

End caps made of polycarbonate for LED strips, suitable for surface mounting. These end caps serve as a finish and protection for LED strips in various installation environments. With compact dimensions of approximately 2.14 cm width, 2.29 cm height, and 0.80 cm depth, they are designed for use with LED strips from the LEDSTRIP END CAPS product line. The white version allows for discreet integration into different lighting installations. Installation is carried out by placing them onto the LED strips to neatly finish and mechanically protect their ends.
