

LEDSTRIP END CAPS RECESSED | M

LED STRIP END CAPS, RECESSED, M, white

End caps for LED strips, suitable for installation in various environments. The end caps are made of polycarbonate and are finished in white. With compact dimensions of approximately 3 cm width, 1.3 cm depth, and 1.1 cm height, they are specifically designed for the termination and protection of LED strips. Installation is carried out by recessed mounting, ensuring a secure and neat finishing solution. These end caps are part of the LEDSTRIP END CAPS product line and are designated as „RECESSED M“.
