

NEW TRIA XL

recessed fitting, QPAR51, round, matt black, max. 50-W, incl. clip springs

This high-voltage version of our popular NEW TRIA recessed fitting series was produced with an extra large cover so that cutting errors can be easily hidden. Housings are available in matt white, matt black and brushed aluminium, with round or square covers. The generous rotation and pivoting range of this recessed spot guarantees you the ability to individually focus its light beam, regardless of whether you choose to use halogen or LED retrofit lamps. Installation is carried out using the factory installed spring clips. The NEW TRIA XL recessed fitting is supplied ready for direct connection to the 230V alternating current.
