

PLASTRA

ceiling light, LED, white, plaster, 3000K

The PLASTRA plaster light is a highly individual ceiling light with a pure, clear design. The luminaire is already equipped with a dimmable LED lamp and is therefore ready for immediate connection to the 230V mains power supply. The sandpaper included as part of the delivery is used to clean the surfaces. After priming, the luminaire can be individually designed by painting it with wall paint or affixing stickers.
