

GRAZIA

IP FLEXSTRIP 24V RGBW IP55

High lighting quality efficiently brought to the strip: the flexibly usable LED strips of the GRAZIA FLEXSTRIP family will impress you with their colour rendering index (CRI>90). The high luminous intensity combined with low power consumption (up to 110lm/W) is also an energy-saving plus. And thanks to the new variants, GRAZIA now offers you even better choice: several widths, luminous intensities and different light colours for outdoors and indoors, for private and commercial use. Benefit from lighting quality, a self-adhesive reverse and soldered cables, allowing each strip to be connected directly to a compatible 24V DC power supply. Each strip can be perfectly integrated into the Grazia profile system.
