

## **DASAR® S**

recessed floor light, round, 4W, 3000K, 24°, IP67, cylindrical, anthracite

The DASAR® recessed floor lights are characterised by their high quality. The colour temperature of the symmetrical light diffusion can be adjusted via the CCT switch (2700K/3000K). While the mechanical load of the stainless steel-covered light is 2,000 kg, it is protected from all weather conditions thanks to its IP67 rating. The beam angle can be customised with three separately available and interchangeable reflectors (15°, 36°, 60°). The mounting housing, which is available separately, makes installation both quick and easy.
