

LEDSTRIP CONNECTOR IP SEALING KIT | 8MM

LED STRIP CONNECTOR IP SEALING SET, 8MM, clear

The LEDStrip connector with IP sealing kit is a connecting element for LED strips with a width of 8 mm. It is used for secure and sealed connections of LED strips in installations where protection against dust and moisture ingress is required. The product is suitable for use in indoor and sheltered outdoor areas where a reliable electrical connection and sealing are necessary. The connector features a clear IP seal that increases the protection rating of the connection. The housing is made of plastic and allows for easy installation. This connecting element is part of the LEDStrip Connector product line and supports professional installation of LED strip systems.
