Description

The 2 Metre Standard Recessed Aluminium Profile is an essential accessory for your LED lighting needs. Measuring 14x25 mm, this profile is designed to provide heat dissipation for the LED strip to prolong its life. The included mounting accessories and end caps make installation quick and easy, while the linear effect achieved when combined with LED strip with more than 120 LEDs per metre will enhance your lighting experience. Get your hands on this versatile and durable profile today!
