Description

This accessory pack is designed to work with the 2 Metre Modular Surface Mounted Black Aluminium Profile (APS-2875B). It includes all necessary mounting brackets and end caps, one of which features a hole punch for cable feedthrough. With these accessories, you'll be able to easily join multiple lengths of the profile together to create one seamless and continuous length. This pack is an essential component for ensuring the proper installation and longevity of your LED lighting solution.
