Description

Get the perfect seamless edge lighting solution with our 2 Metre Border Trimless Aluminium Profile. Measuring 13x32 mm, this profile is designed for use with LED strip lights to prolong their life through heat dissipation. The trimless design allows for easy installation by plastering the profile into a border or edge for a clean, professional look. The included mounting accessories and end caps make for a complete and convenient setup. Maximize the linear effect by combining this profile with LED strip lights featuring more than 120 LEDs per metre.
