Description

Get a seamless lighting solution with the 2 Metre Deep Trimless Aluminium Profile. This 20x63 mm profile includes all mounting accessories and end caps needed for effective heat dissipation of your LED strip to prolong its life. The Trimless/Plaster-In design allows for easy installation by being plastered into the wall or ceiling, creating a clean and modern finish. Achieve a linear lighting effect when combined with LED strip with more than 60 LEDs per meter.
