Weight (g)	500

DESCRIPTION

Upgrade your lighting with the 2 Metre Modular Trimless Aluminium Profile. This high-quality profile is designed to be plastered into the wall or ceiling for a seamless, clean finish. It includes all necessary mounting accessories and end caps, and is ideal for heat dissipation of LED strips to prolong their life. With a 35x75 mm size, this profile is compatible with LED strips with more than 60 LEDs per metre, creating a linear effect for a professional look. The modular design allows for multiple profiles to be connected together for a continuous length, perfect for larger lighting projects. Get the perfect finish with this innovative and versatile trimless aluminium profile.
