

# GRAFIT E27 90 Pole square

**anthracite free-standing lamp**

The GRAFIT 90 floor light made of aluminium profile convinces with its special effect. The lampshades consist of a satinised acrylic in a grey smoked glass look, which however disappears when switched on. The IP44 protection class makes it ideal for outdoor use. The GRAFIT family also includes wall lights and poles in different heights. In addition to the round shapes, edged models are also available. All versions can be equipped with E27 lamps in individual light colours. The poles can be used universally due to the open cable end. An optional ground spike is available for easy assembly.
