

PARA CONE 14

1 phase system light, GU10, white/gold

For a particularly warm lighting effect, the conically shaped reflector of the PARA CONE 14 1-phase system light white/gold incl 1-phase adapter is the first choice. The white version can be individually combined with a wide range of colours and sizes of other PARA CONE lamps to create a cloud of light. The 1-phase system light is installed conventionally on the busbar system, which makes it flexibly positionable as well as rotatable and pivoting. The QPAR5lamp is also easy to replace thanks to the GU10 fitting. The steel housing impresses not least with its robust quality. Experience light with SLV – your reliable partner for all kinds of indoor lights for 40 years.
