

DALI INTERFACE

DALI INTERFACE PUSH DIMM / DALI PCU TW G2, white

The DALI DIM module enables convenient control of DALI and DALI-2 luminaires via a conventional push-button switch. Dimming, switching and - with DT8 drivers - adjusting the colour temperature can be controlled intuitively. The compact module is simply installed in a standard flush-mounted box and simultaneously supplies the DALI bus. Ideal for easy integration of dimmable lighting solutions, e.g. in 48 V track systems.
