LEDSTRIP DIFFUSER TILES AND PLASTER OPALE | XS

LED STRIP DIFFUSER, tiles and plaster, opal, XS

The LEDSTRIP DIFFUSOR, TILES AND PLASTER OPALE XS cover is designed for use in tiled and plastered surfaces. It serves as a diffuser for LED strips, ensuring uniform light distribution. The product is made of polycarbonate and measures 200 cm in length, 0.85 cm in width, and 0.47 cm in height. Its flat design makes the cover particularly suitable for installation in narrow joints or surfaces, allowing discreet integration of LED strips and effective light diffusion. The construction allows for easy installation and contributes to the visual integration in various mounting situations.
