

LEDSTRIP DIFFUSER TILES AND PLASTER BLACK | XS

LED STRIP DIFFUSER, tiles and plaster, black, XS

The cover is a flat component made of polycarbonate (PC), specifically designed for LED strips. With a length of 200 cm, a width of 0.85 cm, and a height of 0.47 cm, it is suitable as a protective cover and diffuser for LED light strips in various installation environments. The cover provides uniform light diffusion and protects the LED modules from dust and mechanical impacts. Its flat design allows for discreet integration into lighting systems, especially in applications where a narrow and unobtrusive cover is required. Installation is typically carried out directly on or within LED profiles to ensure a clean and professional finish.

Item no.	1012541
Lamps included	No
Color	black
Length	200 cm
Width	0.9 cm
Height	0.5 cm
Net weight	0.04 kg
Gross weight	0.04 kg
BIG WHITE Page	627
