

LEDSTRIP END CAPS RECESSED | S

LED STRIP END CAPS, RECESSED, S, black

End caps made of polycarbonate (PC) for LED strips, suitable for clean and secure covering of the ends of LED profiles. The flat end caps have compact dimensions of approximately 2.48 cm width, 1.54 cm height, and 1.02 cm depth, allowing for unobtrusive integration. They are designed for installation in LED strip systems and serve to protect the LED components from dust and mechanical damage. The end caps are part of the „LEDSTRIP END CAPS“ product line and are particularly suitable for applications requiring a neat finishing solution for LED profiles.
