

LEDSTRIP END CAPS SURFACE | M

LED STRIP END CAPS, SURFACE-MOUNTED, M, black

End caps for LED strips, suitable for surface mounting. These end caps are typically used to neatly finish off LED strips at the ends and provide mechanical protection. They are made of polycarbonate and have compact dimensions of approximately 2.14 cm width, 2.29 cm height, and 0.80 cm depth. The black version allows for discreet integration into various installation environments. The end caps are part of the LEDSTRIP END CAPS product line and contribute to a tidy and secure installation of LED strips.
