

## Customs Clearance

The goods cannot enter or exit any country without granting of clearance by Customs Authority. Submission of documents declaring the goods and its description along with the commercial values is must for exports or imports of goods in any country. Various Customs and Security initiatives has imposed several regulations on Exporters and Importers that make it more challenging than ever before to trade in the International market.

Customs Clearance is not a simple job which anyone can perform. There are several thousands of commodities traded across the world and every commodity has a Classification and Customs Tariff Heading for the Purpose of valuation of goods and customs Duty. The customs procedures and process of following the documentation differs from country to country.

Our Customs Clearance team is unique who has extensive knowledge on all customs Rules & Regulation. We are connected with Customs EDI systems which enable us to submit the documents for clearance of Exports or Imports any time. These involve both physical and online functioning. Our field staffs that appear for the physical examination of goods are knowledgeable and experienced in handling any commodities and familiar with all the customs procedures.
