Welcome to **Vectors**

VECTORS ACADEMY was launched in 2010 with an aim to provide best quality education and within a span of 11 years, it has delivered excellent results where many of the classes have failed to deliver the results. The main reason for our success is our understanding of the local conditions and the requirement of the students and the parents. Vectors strives for the best possible guidance and learning environment to its students both in board & competitive examinations.

All Classes in are conducted by a team of highly experienced and qualified faculty who not only create a lively environment for learning but also create curiosity in students by encouraging them to ask doubts & participate.

Over the years, our career guidance program as well has proved to be extremely useful for the students to choose their career.

Integrated IIT-JEE / NEET Course Structure

We have collaboration with the oldest and the best available school in Boisar, for conducting integrated lectures where the attendance of the students will only be mandatory for conducting practicals in the labs.

The study pattern for the integrated classes will be in 3 phases:

Phase 1 – This phase covers the topics in all three subjects - Physics, Chemistry and Maths for Class XI & Class XII. All the fundamental topics are covered in a lucid manner so as to ensure that the student finds it easy to understand the basics for all the topics. This enables the students to excel in board exams as well.

Phase 2 – This phase covers the topics covered in Phase 1 in greater detail along with the applicative questions and other IIT-JEE-Mains and NEET oriented question formats. Comprehensive notes provided to students gives them plenty of practice as well.

Phase 3 – This phase provides quick revision of phase 2 and move ahead with the advanced level of questions once the student excels in phase 2.

Weekly online test on our web portal followed by monthly offline tests will be conducted for proper evaluation of the student. End of the course will mark the start of mock test series.

Course timings & Highlights:

11am-1pm	1pm-1:45pm	1:45pm-2:45pm	3pm-4pm	4pm-5pm	5pm-6pm
Extra Lecture 1	Lunch break	Extra Lecture 2	Board Lecture 1	Board Lecture 2	Board Lecture 3

*Note: Timings may change during holidays & vacations

- **Extra lectures will be completely focussed on Entrance Examinations**
- **Equal attention on Boards as the syllabus pattern will be synchronised with college**
- **Weekly tests Online as well as Offline**
- **Comprehensive study material**
- **Expert faculty for each subject**
- **Up to 25% scholarship for the deserving candidates**
