

We manufacture Polycarbonate corrugated roofing sheets / Louvers / Skylights / dooms / plain sheets / embossed sheets etc. Our product comes with UV coating helps clients to achieve healthier working atmosphere by allowing natural daylight inside blocking harmful UV rays and creating better atmosphere. Our product comes with advantages like Polycarbonate plastic is moldable, durable, lightweight, flame resistant, shatterproof, and energy efficient. A single of its finest properties is high impact resistance, that are more than 200 times. **Polycarbonate** can sustain both boiling and freezing temperatures without losing any toughness, allowing it to thrive in outdoor conditions. ... The high impact resistance of **polycarbonate** ultimately makes it more reliable than many other **roofing** materials.

PRODUCTS

| | |
|------------------------------------------|-------------------------------------------------------------------------|
| CORRUGATED ROOFING SHEET | TICKNESS – 1.2MM TO 3 MM |
| PLAIN SHEET | THICKNESS – 1.2MM TO 2MM |
| POLYCARBONATE LOUVERS | THICKNESS – 1.7 TO 2MM LENGTH -1700MM |
| MULTIWALL SHEETS | 4MM TO 10 MM |
| POLYCARBONATE BASE FOR TURBO VENTILATORS | THROAT – 21 INCH / 24 INCH LENGTH – 1700MM THICKNESS – 1.7 TO 2MM |

CORRUGATED ROOFING SHEET

Can be customized at per customers existing roof sheet corrugation. Corrugated sheets comes with UV protection enabling to eliminate harmful UV rays providing natural light for better working atmosphere.

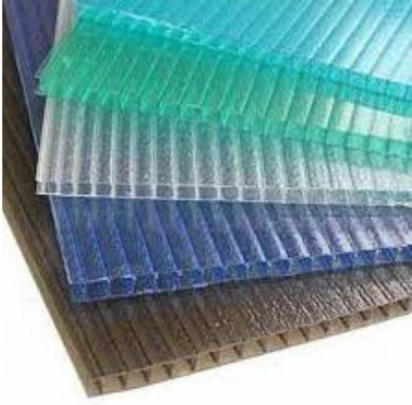

PLAIN SHEET

Comes in various colours and thickness and comes with UV coating.

POLYCARBONATE SIDE WALL LOUVERS

Can be molded as per existing customer roof sheet profile design dual advantages airflow with light. Light weight and dirt resistance.

MULTIWALL

Used for Application like roofing , partition , wall frames, sidewall etc.

POLYCARBOANTE BASE FOR TURBO VENTILATOR

Can be molded as per customer roof sheet profile. Dual advantages natural skylight with ventilation. Dirt proof and more durable than FRP.

We also manufacture customize polycarbonate products as per client requirement and drawings.....
